

The Andrew Clark Trust

OCTOBER 2023

For the very poor, life is a struggle as if they have no work, they have no food. The little boy broke his arm and without our help his family could not pay for the medical treatment.

The cost of food has increased greatly in the last year also.

The Andrew Clark Trust

The father is a fisherman so for 5 months of the year in the monsoon season the boats cannot go out, therefore he has to try to find labouring jobs. Their mother also looks for labouring jobs but there are not enough for everyone. So when she has no work she goes to the forest to find some vegetables for the family to eat.

The Andrew Clark Trust

The three children who are sponsored and come to our school are bright and very keen to learn. They always come to class every day even though they have to walk across a paddy field in the monsoon season which is always flooded.

Hopefully these children will have a much brighter future.
