Trash For Food Project

Over the last year, a lot of villagers are facing many difficulties. This is because even though they want to work, there are no jobs available. Some people are starving and have no food to cook at home.

What we do in this project is whoever joins to pick up trash around the village will be given a sack of rice after three days.

In this way, it helps the people not only with the food but also helps to clean up our environment. The villagers are very keen to participate. We are really thankful to all the donors and supporters.

Lintha Village, Thandwe Township, Rakhine State, The Union of Myanmar.

Trash Hero Ngapali

Trash Heroes still go out every Sunday collecting the trash, and there are between 80 and 90 students joining. We are the most active chapter in the whole of Myanmar. A few teachers also come and join. The students are all very active and keen, as we also teach them the importance of keeping the environment clean.

Bicycles Donation

100 bikes were donated to our poor students, who did not have a bike and they were so excited and happy, as before they had to walk to school, and also many of them have no running water at home, and they usually have to fetch water at least once a day. This has made a huge difference to their lives, and they are so thankful.

New Badminton Court

Badminton is very popular at school, and we were able to have one court concreted, which is great for the students to play, and there is always a queue of students who want to play. Some of them are really good at playing badminton and the court is always full of students the whole time. They are very keen and active to play with their friends.

Giving out toothbrushes by the dentists

Each student has been given a new toothbrush, and for all the ones who have not been taught how to brush their teeth properly, they were taught. We are very grateful to the dentists who donated the toothbrushes.

Now many students are practicing dancing for Christmas and New Year. Every class is full and we have a waiting list, so we will try to have some more classes in the new year.
